### WORK EXPERIENCE

**Frontend Developer**  
**Bangerhead.com (Scandinavian e-shop)**  
Feb 2021 – Jun 2021

This is a small project that aims to increase buying power by adding gamification to the main website.

My main task was to design two templates for the desktop and mobile version based on the design that was provided to me through Figma.

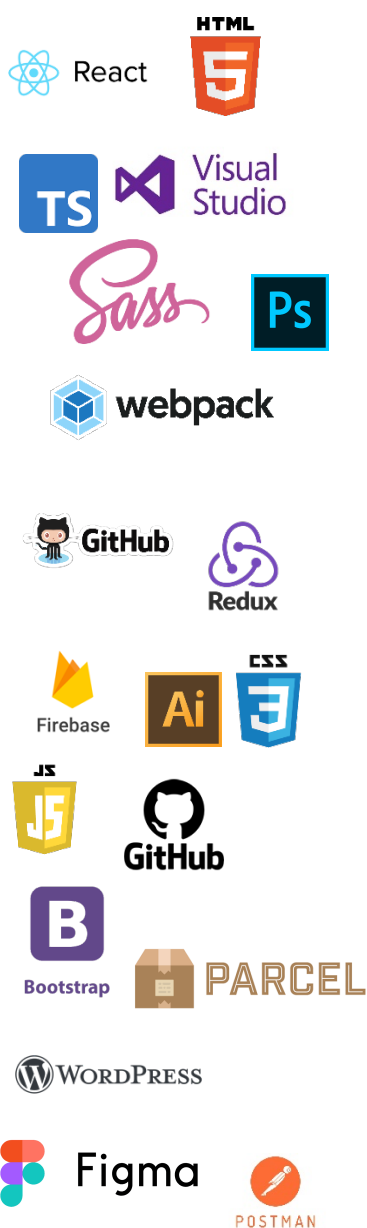

I configured the interface elements using javascript and made valid requests that added data to the site via an API.

## KNOWLEDGE & SKILLS

## React Developer Sunnytrips.cz (Trips/Events in Czech Republic)

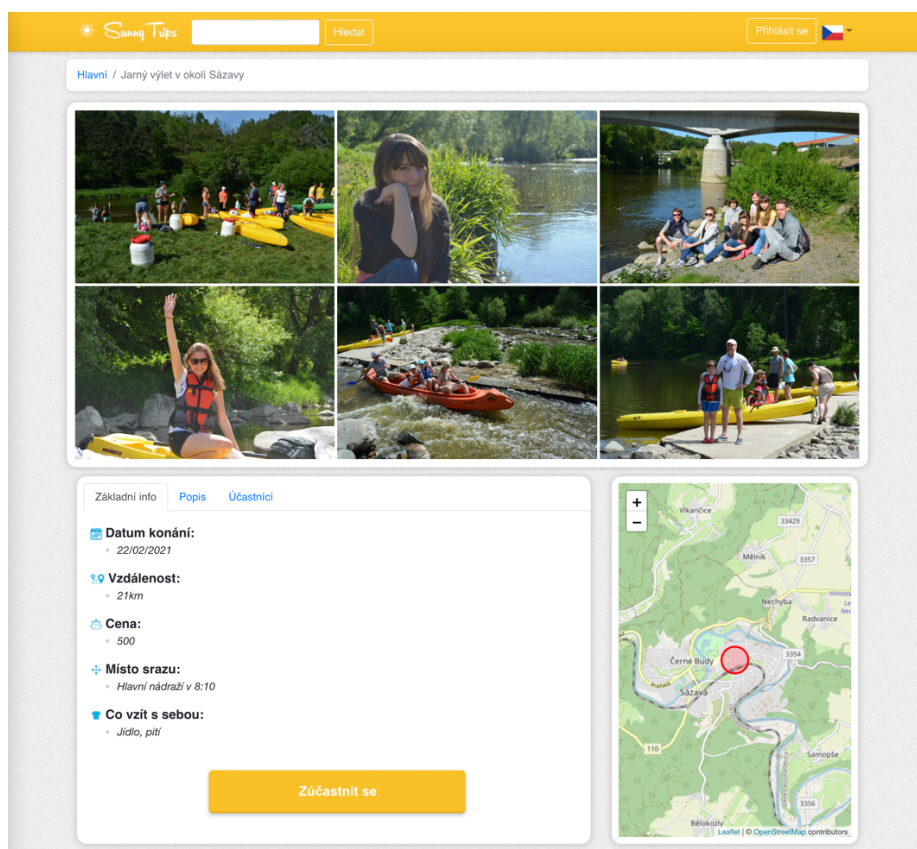

Jan 2021 – Feb 2021

A commercial project created for lovers of outdoor activities in the Czech Republic.

The site was created from scratch using React, Bootstrap and Firebase technologies.

The project included – a photo gallery, personal accounts, registration, authorization and maps. The site works in three languages. The project is still in development.

Minor css changes needed to be made and payment through the site was added.
